HEY DUGGEE

Crafts to inspire play

1

2

For **Duggee**, start with a clean and dry cork (we used a champagne cork for Duggee because the shape is perfect but you can use a regular cork).

Paint the top half a nice 'Duggee' brown, adding in the face details with paint and/or markers.

Paint the bottom half a nice bright yellow and make sure to draw on all Duggee's badges.

3

Cut out some strips of paper to the shapes above for Duggee's tie, and two ear shapes as shown. Paint the ears the 'Duggee' brown, the tie pieces yellow, and a small square of blue.

4

Carefully glue the ears to the back of Duggee's head with fast drying glue. Then glue his tie into place.

HEY DUGGEE

Crafts to inspire play

You will need:
- Wine corks
- Paint
- Paint brushes
- Knife (for cutting wine cork)
- Orange craft paper
- Matchstick

For **Happy**, you'll need two clean and dry wine corks. You will need to cut one of the wine corks a little bit shorter for the body.

Paint the full length cork a nice 'crocodiley' green. This will be the head.

For Happy's body, paint the second shorter cork green, and add a light blue around the base. A narrow strip of orange paper wrapped around the cork completes the look.
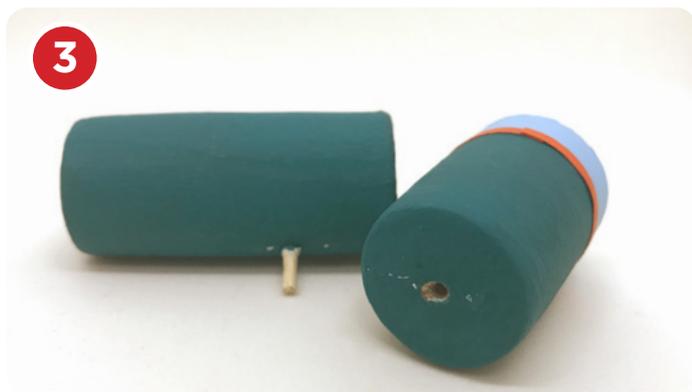

To attach the corks, carefully poke a small hole in the top of the body using a matchstick. Repeat this step on the side of the head, as shown. Leave a small piece of matchstick inserted into the cork to help fix the head to the body.

Attach the head to the body with a drop of glue to hold the toothpick in place. Set it aside for the glue to dry.

Paint on Happy's 'happy' face with your paint and/or markers... and hey presto, you're done.

Now that you know how to make Duggee and Happy you can use the same approach to create the rest of the Squirrels!
