

**Play dough-** We started off by making play dough. The method we used was:

- 1 cup flour
- ½ cup salt
- 1 tablespoon olive oil (can use other oils)
- 1 tablespoon cream of tartar
- 1 cup boiling water
- 3 tablespoons chocolate drinking powder (we used Milo but you can use cocoa powder, or replace with brown food dye)

Mix together the water, salt and chocolate powder. Stir well to dissolve the salt and powder.

In a separate bowl; add the flour, cream of tartar and olive oil.

Slowly add the water, you may find you need slightly more or less depending on the chocolate powder used.

Mix together with a wooden spoon, then with your hands as it starts to form, taking care due to the heat.

If the playdough seems to wet, add some extra flour until it is at the desired consistency.
