

# DStv HD DECODER QUICK GUIDE

**DStv**  
Feel every moment

## DStv HD Features

- View 1 channel at a time (no PVR functionality)
- HD capable (720p and 1080i)
- Content Discovery (including multiple search options)
- 8 Day TV Guide
- Reminders
- 24 hour i-Plate
- Parental Control
- Dolby Digital 5.1 Capable
- XtraView Capable (compatible with selected XtraView decoders)
- Widescreen Capable
- Hearing Impaired Subtitles (when available)
- User Friendly HD Menus
- Interactive Applications (SuperSport, News24, Weather)

### Please Note

- HD channels are only available on selected packages.
- XtraView requires payment of an additional monthly fee stipulated by MultiChoice.

# Welcome to our world of extraordinary entertainment!

Congratulations on the purchase of your new DStv HD Decoder!

The moment you connect your DStv HD Decoder, is the moment your TV viewing experience will become extraordinary. Watch in crystal clear HD, enjoy rich colours and a picture so clear, you can see every blade of grass on the pitch.

There is also a brand new menu and remote control, making it so much easier to use.

This DStv HD Decoder has more search features than any other single view decoder before, making it easy for you to discover great entertainment.

If you have an existing XtraView capable decoder (other than the SD PVR), you can easily link your new DStv HD Decoder to it in order to enhance your viewing experience.

Get started by using this Quick Guide to help you with installation and to familiarise yourself with the new remote control as well as the functions and features this decoder has to offer.

Finally, visit **[dstv.com](http://dstv.com)** and register for a Connect ID which will allow you to manage your account, clear error codes and more. You can also enter competitions, find out news about the latest shows and use the online TV Guide to help plan your viewing.

## An extraordinary world of entertainment awaits ...

| <b>6 RCA</b>         | Used to connect the decoder to a non-HD TV                 |
| <b>7 SPDIF</b>       | Used to connect the decoder to your home theatre system    |
| <b>8 Ethernet</b>    | Not active   |
| <b>9 Power input</b> | Connect the power supply to this input                     |

## Installation

This Quick Guide will help you with simple connections to your satellite dish and TV.

To get the best from your DStv HD Decoder, you need a properly aligned 80cm satellite dish and single LNB.

If this decoder is linked to another one using XtraView, a DStv Smart LNB is recommended.

If you have an XtraView installation, or your installation has multiswitches or multiple TVs, we recommend the use of a DStv Accredited Installer. Find your nearest one at [dstv.com](http://dstv.com).

### Notes

- The DStv HD Decoder is XtraView capable and is compatible with selected XtraView capable decoders
- HD content is only available via HDMI
- Dolby Digital is only available with the correct audio equipment

## Installation - Connection to the Satellite Dish

This decoder can be connected to a single, twin, quad or DStv Smart LNB.

### Connect to Single LNB

Connect the cable from the satellite dish directly to the LNB input on the back of the decoder.

### Connect to DStv Smart LNB

Connect the cable from the satellite dish directly to the LNB input on the back of the decoder.

### Connect to Twin LNB

Connect either cable from the satellite dish directly to the LNB input on the back of the decoder.

### Connect to Quad LNB

Connect any one of the four cables from the satellite dish directly to the LNB input on the back of the decoder.

## Installation - Connecting to the TV

### Connecting the decoder to the TV

1. If you have a HD TV, use the supplied HDMI cable and connect it to the HDMI port (marked 1) on the back of the decoder, then connect the other end to the HDMI port on the TV.

If you have a non-HD TV, use the supplied RCA cables and connect the red, white and yellow inputs to the RCA ports (marked 2) on the back of the decoder, then connect the red, white and yellow inputs to the RCA ports on the TV.

2. (Optional) Connect the decoder to your home theatre system using the SPDIF port (marked 3) on the decoder.
3. Connect the power supply to the input marked 4 and then plug the other side into the mains.

## Getting Started

Your DStv HD Decoder has all the features you're familiar with, and so much more.

Five important things you need to know when using your new DStv HD Decoder :

- 1** The DStv HD Decoder has **ONE central menu** with all content & settings. Press the **DStv** button to go straight to DStv Central. (See the DStv HD Decoder Map for more info)
- 2** When looking for something to watch, use the **hotlink buttons** on your remote to go directly to the **TV Guide** or **Search**. It's that easy to find something to watch right now!
- 3** Press **OK** on any programme name to see the list of available **actions**. You can set a reminder and even get a list of when a programme will be aired again within the next 8 days.
- 4** To change viewing options (like language and aspect ratio), press **OPTIONS**. Pressing this same button when viewing a list, lets you change the sort order or how the information is displayed.

## DStv HD Decoder Map

Press  to access DStv Central at any time

### Watch Now

- Go to Live TV
- Audio Channels

### Search

- Movies
- Series
- Sports
- Theme Search
- Word Search
- Advanced Search

### Planner

- Reminders
- TV Guide

### Apps

- News24
- Weather
- SuperSport Active
- Easy Info

#### Watch Now

You can either go to live TV (and watch any of your channels) or go to the audio channels and listen to one of the wide range of audio channels available.

#### Search

Explore our world of entertainment using one of the search options available. You can also go directly to **Search** using the hotlink button on your remote.

#### Planner

Here you'll find a list of all the reminders you've set as well as the TV Guide. Everything you need to help plan your viewing!

#### Apps

Your one stop access to all the interactive services available on your DStv HD Decoder. Press **OK** while watching TV for quick access to the list of available apps.

### Settings

This section of the menu includes all settings that you can personalise, together with Parental Control, Satellite Settings and more.

### Help

Here you can find our contact details, your mail messages as well as Information Central (which you need when contacting our call centre).

## Personalising your DStv HD Decoder

We recommend that you personalise the settings on your new DStv HD Decoder to have the best possible viewing experience.

Press the **DStv** button and go to "User Preferences" in "Settings" to set your preferences for default language, aspect ratio and more.

## The TV Guide

The TV Guide lists 8 full days of programming information, allowing you to easily plan your viewing.

Press the **TV GUIDE**  button for quick access to our programme schedules.

Press **OK** on any programme to see the available actions. You can set reminders and find out when the programme will be aired again over the next 8 days.

### Quick Tips

- Press **OPTIONS** to change the way the schedules are displayed.
- Press **P+ / P-** to jump 24 hours at a time.
- Enter a channel number to quickly jump to schedules for a specific channel.

## The TV Guide

A great feature of the DStv HD Decoder is being able to find out when a programme is on again within the next 8 days.

If you see a programme that you missed, press **OK** on the programme and select Other Airings to see when the programme is on again in the next 8 days.

You can then schedule a reminder for one of these alternatives to make sure that you don't miss out on your favourite programme.

## Search

Would you like to find a movie for the kids to watch, or find that new series you've heard so much about? Our DStv HD Decoder Search options will find these for you.

Press the **SEARCH**  button to explore our content.

If you're looking for a kids' movie, select "Movies A-Z" and scroll through the categories to find something suitable.

Or use Advanced Search – select Movies as your theme and select a PG rating. We'll list all the movies that meet your PG requirements. It's that easy!

## Search

If you're looking for that new series you've heard so much about, use the Series option to find it for you. It's that easy!

You can also find specific sporting events. Want to know what time that big soccer match kicks off later today? Just select "Live Sports 24 Hours".

## Watching TV

To see the title of the programme you're watching, press **i**. For additional information about the programme, press **i** again.

## Watching TV

Press **OK** on any programme to see the available actions.

### Quick Tip

Arrow **DOWN** to see programming info for a full 24 hours on any channel.

## Watching TV

To see what's on other channels, press **GRID** and use the arrows to move the highlight. You can also press **OK** to tune to a selected channel.

To change the aspect ratio, select another language or to display subtitles, press **OPTIONS**.

### Quick Tip

To change aspect ratio on the fly, press **ARC**.

## Listening to Audio Channels

DStv offers a wide range of audio channels. It's now easy to access and listen to your favourite radio station or DMX channel.

- When watching TV, enter the number of the audio channel on the remote, or
- Press **GRID**, find the audio channel you want to go to and press **OK**, or
- Press the **DStv** button, select "Watch Now", go to "Audio Channels" and press **OK**

To quickly return to live TV, press the **TV** button.

## Parental Control

The DStv HD Decoder has a Parental Control feature which allows you to block programming based on the PG rating. This feature also allows you to block entire channels. Viewing is then only available once a valid PG PIN has been entered.

The default PG PIN is 1234. If you block the PG PIN, please contact your closest call centre and ask them to reset it.

To make use of this feature, go to “Parental Control” in “Settings”.

All programming carries a PG rating and includes SNVL notification (an indicator of programming content – **S**ex, **N**udity, **V**iolence, **L**anguage).

## Apps

Would you like to know the latest sports scores? Or see news updates and the latest weather forecasts?

Press **OK** while watching TV and make your selection from the available Apps.

## Favourite Channels (Channel Groups)

You can set up Favourite Channels on the DStv HD Decoder so that when watching TV or using the TV Guide, you only see the selected channels.

The DStv HD Decoder allows you to set up to five different channel groups, giving you the option to create a group for each family member, or even groups for the various types of channels.

You can then name these channel groups (like “Mom’s Channels”, “Dad’s Stuff”, “Sports”, etc). We even let you select a colour for the i-Plate when you’re watching channels in this group.

Press the **DStv** button and go to “User Preferences” in “Settings”. Then select “Channel Groups”.

### Quick Tip

When watching TV, press **OPTIONS** to change the channel group.

## How to check your Messages

If the front panel of your DStv HD Decoder has a flashing **AMBER** light below the envelope icon , that means we've sent you a message.

To read your message, press the **DStv** button, go to "Help", select "Mail Messages" and read your message.

Once the message has been read, the **AMBER** light will be switched off.

## All about Icons

- Live TV**  Shows which programme is currently live.
- Audio Channel**  Indicates an audio channel.
- Message**  The **AMBER** light below the envelope icon on the front of your DStv HD Decoder will flash when you have a message from DStv. Press the **DStv** button and go to "Help" to read your message.
- High Definition** **HD** Programme is in High Definition. This icon is displayed with the programme synopsis. Press **i** on any programme to see this additional information.
- Widescreen** **WS** Programme is in widescreen (16:9). This icon is displayed with the programme synopsis. Press **i** on any programme to see this additional information.
- Dolby**  Programme has a Dolby soundtrack. This icon is displayed with the programme synopsis. Press **i** on any programme to see this additional information.
- Subtitles**  Programme has Subtitles available. This icon is displayed with the programme synopsis. Press **i** on any programme to see this additional information.  
**Quick tip:** You can select to automatically display subtitles. See "User Preferences" in "Settings".

## All about Icons

**SNVL** 

This information is displayed for all programmes and is an indicator of programming content (**S**ex, **N**udity, **V**iolence, **L**anguage).

**PG Block** 

Content is blocked due to Parental Control settings. A valid PG PIN is required to watch this content.

**Reminder** 

You can set a reminder for any future programme (select the programme, press **OK** and select “Set Reminder”). This icon will then display with the programme information. To see all reminders – press the **DStv** button and go to “Reminders” in “Planner”.

**Info** 

This icon is only used in the TV Guide, and only when we don't have space to show you the programme title. Press **i** to see programme information.

## All about the DStv Remote (B5)

1. STANDBY 
2. PROFILE
3. TV GUIDE

16. V+ / V-
17. MUTE
18. HELP

**i** Note

This remote is not a universal remote and cannot be programmed to control other audio/visual equipment.

## Using the DStv Remote - Hotlinks

You can use the hotlinks on your remote to quickly access key features of your DStv HD Decoder.

- 1** Goes to the **TV Guide** – 8 full days of programming information, allowing you to easily plan your viewing.
- 2** Goes to **Search** – we have multiple search options available, making it easier for you to discover great entertainment.
- 3** Goes to **DStv Central** – the DStv HD Decoder has ONE central menu with all content & settings. Press the **DStv** button at any time to go directly to DStv Central.

## The Remote Buttons

Name	Description
<b>STANDBY</b> 	Allows you to quickly put the DStv HD Decoder into standby (or bring it out of standby). <b>Quick tip:</b> if you press and hold the <b>STANDBY</b> button, the DStv HD Decoder will reboot.
<b>TV GUIDE</b> 	Your hotlink to the TV Guide with 8 full days of programming information, allowing you to easily plan your viewing. You can also access the TV Guide by pressing the <b>DStv</b> button and going to "Planner".
<b>SEARCH</b> 	Your hotlink to Search. Get A-Z listings of sport, movies or search for a programme or for a range of programmes that meet your specific needs. You can also access Search by pressing the <b>DStv</b> button and going to "Search".
<b>INFO</b> 	Press <b>INFO</b> on any programme to see more information, including a detailed synopsis.
<b>DStv</b>	Goes to DStv Central. All content, settings, information, schedules and more – all at the touch of one button.
<b>BACK</b> 	Press <b>BACK</b> to remove onscreen items or save your settings.
<b>PROFILE</b>	Not active
<b>TV</b>	If you are using the menus or apps, the TV button is your hotlink back to video.
<b>ARROWS</b>	Used to move the highlight on menus or select options.
<b>GRID</b>	Displays the channel grid which lists available channels in an easy to use grid. Use the arrows to move the highlight and see what's on other channels. This button also doubles up as the <b>RIGHT</b> arrow.

## The Remote Buttons

- OK** OK allows you to select onscreen items, and also allows you to find out everything you can do with content.  
**Quick tip:** When highlighted, press **OK** on any programme to see the available actions (from setting a reminder, to even finding out when the programme is on again in the next 8 days.)
- ALT** Switches between the last two viewed channels.
- MUTE** Mutes the audio.  
**Quick tip:** Can also be set to "half mute" mode. See "User Preferences" in "Settings".
- OPTIONS** Press **OPTIONS** on any screen to see the available choices. When watching TV, you can change Language or Aspect Ratio (and more) and when in the menus, you can change the order of items on screen or change the display.
- P+ / P-** Changes channels.  
**Quick tip:** when scrolling through a list, you can press **P+/P-** to scroll a page at a time, and in the TV Guide, to scroll one day at a time.
- V+ / V-** Changes the volume (if audio is set to Variable). If you have set the audio to Fixed, pressing these buttons will NOT change audio. See "User Preferences" in "Settings".
- Numbers / SMS keyboard** Used to change channels, enter/edit text and more.
- ARC** Your hotlink to changing the aspect ratio on the fly. If you don't like the screen size, press **ARC** until you find a suitable aspect ratio. This does not change the default aspect ratio setting.
- HELP** Where available, pressing **HELP** will display contextual support.

## About the Remote Modes

If you have multiple decoders in your home or even in the same room, you need to set the remotes (and the decoders) to different “modes”, so that the commands sent from one remote, won't be picked up by the other decoder. If you are using two DStv HD Decoders, you will need to set one remote to TV1 mode (to operate the first decoder) and another remote to TV2 mode (to operate the second decoder).

This remote has three modes and can be set to TV1, TV2 or TV3 mode. The default mode is TV1.

You will see a **green** light blink every time you press a button on the remote control.

If the **green** light blinks below **i**, the remote is in TV1 mode.

To set the remote to TV1 mode: press and hold the **i** button for 3 seconds or until you see the **green** light blink on TV1 (below the **i** button).

If the **green** light blinks below **BACK**, the remote is in TV2 mode.

To set the remote to TV2 mode: press and hold the **BACK** button for 3 seconds or until you see the **green** light blink on TV2 (below the **BACK** button).

## About the Remote Modes

If the **green** lights blink below both **i** and **BACK**, the remote is in TV3 mode.

To set the remote to TV3 mode: press and hold both the **i** and **BACK** buttons for 3 seconds or until you see the **green** light blink on TV1 and TV2 (below the **i** and **BACK** buttons).

### IMPORTANT

The DStv HD Decoder must be set up to “listen” for the correct mode. You can do this in DStv Central.

- Press the **DStv** button
- Go to “Settings”
- Select System Settings
- Select Remote Control
- If the remote is set to TV1 mode, set mode 2 and mode 3 to **Ignore**.
- If the remote is set to TV2 mode, set mode 1 and mode 3 to **Ignore**.
- If the remote is set to TV3 mode, set mode 1 and mode 2 to **Ignore**.

If your DStv HD Decoder is connected to another decoder using XtraView, please consult with your DStv Accredited Installer for remote mode settings.

### ? I think the battery is dead. How can I check?

Press any button on the remote. If the **green** light blinks (below **INFO**, **BACK** or both) the batteries are working. The batteries supplied with this remote should last approximately 12 months.

### ? How do I know if the remote is broken?

Press any button on the remote. If the **green** light does not blink (below **INFO**, **BACK** or both), the remote is either broken or needs new batteries. If you put in new batteries and the green light still does not blink when a button is pressed, you will need to replace the remote. This remote has a 12-month warranty from the date of purchase. Please take it to your nearest MultiChoice Service Centre or Agency together with your proof of purchase.

If your remote is older than 12 months, you can replace it at any MultiChoice Service Centre or Agency.

### ? Nothing happens when I press a button (the DStv HD Decoder does not respond).

Firstly, check that the remote is working. Press any button on the remote. If the **green** light blinks (below **INFO**, **BACK** or both) the remote is working.

Now check where the **green** light is blinking.

If the **green** light below **INFO** blinks, the remote is in TV1 mode.

If the **green** light below **BACK** blinks, the remote is in TV2 mode.

If the **green** lights below both **INFO** and **BACK** blink, the remote is in TV3 mode.

Change the mode of the remote (see steps on previous pages) and try again.

## Safety Information

This DStv HD Decoder meets International Safety Standards. Please read the following recommended safety precautions carefully.

### **Mains Supply**

The DStv HD Decoder operates at 12 V DC and is connected to the mains supply using the supplied power supply, rated 100 - 240 Vac 50/60Hz. Connect the power supply to the decoder before connecting the other end of the cable to the mains wall socket. Disconnect the power supply from the mains before connecting or disconnecting any other cables to the decoder's back panel.

### **Liquids & Spillage**

Keep liquids away from the DStv HD Decoder and do not put anything on top of it which may spill (example: lit candles, plants or containers of liquid). Do not use the DStv HD Decoder in extreme temperature and humid conditions.

### **Ventilation**

It is essential to keep the DStv HD decoder cool. Do not block the ventilation holes and ensure that free airflow is maintained around the decoder. To maintain adequate ventilation of the decoder, ensure that there is at least 10cm of free space above and to the sides it. Never stand the DStv HD Decoder on soft furnishings or on carpet. Do not use, or store the DStv HD Decoder near a heater or where it is exposed to direct sunlight. Never stack other electronic equipment on top of, or below the DStv HD Decoder.

### **Cleaning**

Before cleaning the DStv HD Decoder, first disconnect it from the mains. Use a dry cloth to clean the exterior.

### **Servicing**

Do not attempt to repair the DStv HD Decoder yourself. You should also never remove the cover of the DStv HD Decoder. Any tampering with the DStv HD Decoder will invalidate the warranty. Refer all servicing to a qualified MultiChoice Agent or Branch.

### **Lightning**

If the DStv HD Decoder is installed in an area subject to intense lightning activity, protection devices for the power supply are recommended.

### **Earthing**

The earthing system must comply with local regulations.

### Introduction

This DStv HD Decoder is designed, manufactured and sold to receive MultiChoice satellite services only. It will therefore not be fully functional unless:

- It is used with an enabled MultiChoice Smartcard;
- it is used with a compatible DStv Remote;
- it is loaded with the latest software;
- the appropriate subscriptions are active;
- it is used with the correct external power supply;
- the installation meets the technical specifications to receive the MultiChoice signal; and
- deployed within South Africa.

MultiChoice is entitled to amend the software incorporated in the DStv HD Decoder from time to time by means of software downloads for a number of reasons, including preventing the DStv HD Decoder from being used to receive services other than services authorised by MultiChoice.

### ALTECH UEC

Altech UEC and their logo are trade marks and / or registered trade marks of Altech UEC.

### ROVI

This product incorporates copyright protection technology that is protected by U. S. patents and other intellectual property rights. Use of this copyright protection technology must be authorised by Rovi Corporation, and is intended for home and other limited viewing uses only unless otherwise authorised by Rovi Corporation. Reverse engineering or disassembly is prohibited.

*Do not connect the unit through a VCR. Video signals fed through VCRs may be affected by copyright protection systems and the picture will be distorted on the television.*

### DOLBY

Manufactured under license from Dolby Laboratories. Dolby and the double-D symbol are trademarks of Dolby Laboratories.

### HDMI

HDMI, the HDMI Logo, and High-Definition Multimedia Interface are trademarks or registered trademarks of HDMI Licensing LLC in the United States and other countries.

### OPEN SOURCE

This product contains some open source software. For a full list of this software and the associated copyrights and licenses, go to [dstv.com](http://dstv.com)

### **Intellectual Property** (including copyright)

All intellectual property rights in the DStv HD Decoder as well as in the content received using this DStv HD Decoder are either owned and/or licensed by MultiChoice. Unless specifically authorised in writing, the subscriber shall acquire no right, title or interest in any of the intellectual property rights (including the content).

No data, video or audio content received using this DStv HD Decoder and a MultiChoice conditional access Smartcard may be copied, re-transmitted, re-broadcast other than as permitted by MultiChoice in the Subscriber Agreement. The DStv HD Decoder allows some content to be recorded once to an external device. Hiring out or selling any of the content received using this DStv HD Decoder is STRICTLY PROHIBITED.

Hacking of the conditional access system or facilitating anyone else doing so is STRICTLY PROHIBITED. Failure to adhere to this prohibition is a criminal offence.

### **General**

- MultiChoice reserves the right to “marry” (i.e. link) the Smartcard and the decoder.
- Use of the XtraView functionality on the DStv HD Decoder requires payment of an additional monthly fee stipulated by MultiChoice from time to time.
- Unless specifically required by applicable legislation and/or applicable warranties, MultiChoice shall not be liable for failure of a Smartcard or decoder or any component thereof.

### Product Warranty

The manufacturer and MultiChoice warrant that the DStv HD Decoder will be free from defects in design, materials and workmanship for a period of 12 months from the date of sale of the new DStv HD Decoder to the consumer. This warranty will not apply in the event of:

- The DStv HD Decoder being tampered with or being opened, worked on, repaired or modified, save by an authorised MultiChoice Agent or Service Centre;
- The DStv HD Decoder not being installed or used in accordance with the manufacturer's specifications;
- The DStv HD Decoder not being used with the correct power supply;
- Malfunctioning or damage caused by the use of the DStv HD Decoder in conjunction with equipment or smartcards not supplied by the manufacturer or MultiChoice;
- The DStv HD Decoder being used to receive services other than services authorised by MultiChoice.

In the event of the DStv HD Decoder not functioning, contact the MultiChoice Call Centre or take the DStv HD Decoder to a MultiChoice Service Centre/Agent, or the retailer from which the DStv HD Decoder was purchased. In the event that the DStv HD Decoder is taken to a Service Centre/Agent, the Service Centre/Agent will return the DStv HD Decoder to the MultiChoice Repair Centre.

## Legal Matters

We also draw your attention to the implied warranty of quality in terms of section 56 of the Consumer Protection Act, 68 of 1998, as amended from time to time (the “Consumer Protection Act”) in terms of which, if the DStv HD Decoder fails to meet the requirements and standards contemplated in section 55 of the Consumer Protection Act, you may be entitled, without penalty at your election, to:

- Repair or replace any failed, unsafe or defective equipment; or
- demand a refund of the price paid by you for the equipment.

Any repairs made in these first 12 months must be made by the MultiChoice Repair Centre in order to rely on this warranty certificate. This certificate, plus the original purchase receipt showing the date of purchase of the new DStv HD Decoder, must be provided to the MultiChoice Agent or Service Centre to which the DStv HD Decoder is taken.

Did you know you can insure your DStv HD Decoder? Visit [dstv.com](http://dstv.com) for more information on the Decoder Care Contract which covers the DStv HD Decoder in the event of loss or damage.

Terms & Conditions apply

### Disclaimers

Other than set out in this certificate, the most up-to-date Subscriber Terms & Agreements and DStv HD Decoder information (available on [dstv.com](http://dstv.com)) and applicable legislation (including the Consumer Protection Act), the manufacturer and MultiChoice make no warranties, either expressed or implied, and including, but not limited to, implied warranties of merchant ability and fitness of the DStv HD Decoder for a particular purpose. This extends to the hardware, software, the DStv HD Decoder User Guides and any other written materials accompanying the DStv HD Decoder at the time of its sale.

The manufacturer and MultiChoice specifically make no warranties, expressed or implied, that the DStv HD Decoder is capable, or in the future, will be capable, of receiving services other than MultiChoice services.

Despite anything to the contrary, and save for the above-mentioned remedy in relation to the DStv HD Decoder which does not function during the period covered by this warranty certificate and applicable legislation, the manufacturer and MultiChoice will bear no liability whatsoever, whether in contracts, delict or otherwise, for injury, loss or damage, including any loss of business profits or any other consequential damages arising out of the installation, use or operation of the DStv HD Decoder or any defect therein.

MultiChoice will not be held responsible for any damage resulting from installations, whether by its agents, MultiChoice Accredited Installers, through do-it-yourself or through incorrect usage of equipment.

### **Obsolescence Disclaimer**

Digital Satellite Technology is rapidly evolving. As a result of this, it is not possible to predict what the requirements will be in a few years' time. MultiChoice cannot guarantee that this DStv HD Decoder will be able to run all available services in future.

### **DIY Installations Disclaimer**

A MultiChoice Accredited Installer or the supplier / manufacturer of the specific equipment should be consulted if any doubt exists when doing an installation. Please refer to the manuals provided with your satellite dish and any additional equipment used in the installation of the DStv HD Decoder if you decide to do the installation yourself.

### **Installations Indemnity**

Each and every installer acts as an independent contractor and is not an employee, subcontractor or agent of the manufacturer or MultiChoice. The manufacturer and MultiChoice are therefore not liable for any loss and/or damage of any nature whatsoever caused by the conduct of the installer, including, but not limited to:

- Any direct, indirect or consequential damages, loss of profit or other special damages of any nature which the user may suffer as a result of any breach by the installer of any of its obligations to the user;
- Any loss and/or damage to the property of the user and/or any third party, situated on the user's premises, as a result of an act and/or omission on the part of the installer.

## Legal Matters

Unless specifically provided otherwise in this certificate and/or required by applicable legislation (including the Consumer Protection Act), the manufacturer and MultiChoice do not directly or indirectly warrant or guarantee or make any representations whatsoever with regards to any equipment, including, but not limited to, any dish, LNB, switch or cabling used by the installer.

Subject to any express warranty or guarantee given by the manufacturer or MultiChoice, in writing, the manufacturer and MultiChoice do not:

- Give any warranty or guarantee or make any representation whatsoever in respect of any work carried out by any installer (including accredited installers);
- Accept any liability for any latent or other defect in any work carried out by any installer (including accredited installers).
